

MOYIE READING CENTRE NEWSLETTER

June/17

Summer is almost here and the Community Hall and grounds are starting to come together. Sod has arrived and been installed. The new shed for the hall is almost complete. There is also a new shed at the Cemetery to hold tools and water needed for maintenance. Thank you everyone who came out to help with all the work.

This is bear season and a mother with two cubs has been seen frequently over by the Aurora and Estates Road. Let's teach them that there is no food source around here by keeping your garbage out of site.

Book Review

Title: The Husband's Secret
Author: Liane Moriarty

A fictional story of three intertwined story lines and terrific plot twists. It gives us a look at the meaning of love and how life can hinge on a misunderstanding or quickly made decision. A real page turner.
